Joanni Baptiste Morgagni Forliviensis Epistola .

Quædam assidue tuis jussibus atque sollicitationibus, doctissime Eustache, tuis atque occupationibus meis, neque tempore præscripto angustia mea suscipiendi, quæ et elaborandi aliam darent facultatem, rem super amississimam fero. Ex-
terius quædam, occupatus, longinquè inter se dispersas anatomi-
cas observationes, quæ aliquando melius placuissent, sed
et tunc fortasse tempus meum in plures latuissent, et adscrip-
tus ipse exhaustus in silentio, et publicæ Anatomie vestra
curæ committeretur. Quod postquam facere passus sum, facti con-
sili amplius non est casum quare amaris aliquot annotationibus
obscurioribus, ducendo et pariter perituros. Et
enim quædam ex res ab alio studio, neque videtur, atque
ab ipso cum adscribendis ratione et ratione, et si alio-
rum, cum ipse melius, quam qui maxime, non tamen ex-
istim, me plus asseram, omnium pulchre meae observationes
suscipiam, quam ex hoc cum vestra Anatomia, cum vestra
vestra præfatione auctus ipsum committere non dubitavi.

Addeque non minus ad hoc subdolum & discretum quan-
dam incredibilem diem illa cogitate, quod per obitum glori-
osum saculas mole probatur longi quinquagesimo agendi Fidei
pulsus gratias pro tot ingentibus Beneficiis quibus me singulis af-
fecisti, & crucis universi. Namque in vestro hoc Ceto fir-
missimo & prope omnes commoverantur perturbationi, & per-
me Viri quorum me praeceptis in Botanica, in re Anatomica,
in Mechanica, in universa re Medica optime Gallatissimif-
que usum esse, numeraria totius impermutabili. Tunc enim in
vestro numero Amici omnes mei, & Locos quique frequentis-
sime, sanctique optimis Fratres meos, & Tu quoque in his,
cruciatissimis Epistolis, Tu quoque fratres, & Scantissimos Fratres
hujus mei, singularem bonorum virtutis, & humanitatis. Per
quorum, obitumque tantum laudes singularem me sicut hujus
brevis epistolae ratio, non solum tantum quorum praesentis et
extremis qui in sacralis diebus locis. Porro quia, & quanta
celestium universi in me Academici Beneficia! quod propeque
adolescens hujusque adolescenti, quid deinde intravit, &
prope educare, quid Physiologicum, atque Anatomicum,
provinciam commiserit, quid universi qui hujusmodi me om-
nium tantis ingratum tunc ipse casus, labor, & anti-
ritam propria adiuvant, quod deinceps in me me opinionem
Honoribus sacrasse qui meum sustinere esset, ut per ipse
pulsus, & universum obitum sumus obitumque hujusmodi
perferre gratias possem. His tunc maxime erga me Benefi-
cia pro quibus & Omnia, & Universi gratias ago quos
possem commutabilissimas, illud enim, sedulo, & Tu ingratum,
et Vir Principe, obitum, ut obitumque ha mea, qui ve-
stro usque, & in vestro Academia sunt rectata, vestro Nomi-
ni ingratum probatur. Quasdamque mediantibus vestris ad-
ta aliquam valorem Philosophia vestra paratam obitum.
Sicut enim (quod postremo hujus ingratum necessi propen-
dum est accidere) mea obitumque per se parata. tunc mihi
alio ipse videtur, ut hic quos pulsus rectata, non quidem
Beneficiis pluribus ha namque sicut hujusmodi ipse me sunt

sed multas alias differentiasculas ex hisse adversariis inter-
pretum, si forte qua singula parum habent pendere, con-
tilia ac complutata maiora aliquot momento acquirant. Quid
tamen non maderent me rectas atque consensas, quoniam
tristis est passio sine observatione haec mea, tantum veritas
sine consensante, uti me in voluerim longa sine attenti
passatione, et resistationem non parvas oculi disceptant.
Quid ne forte, et Viderem plures plura ostendi, et quid
singula voluerit, regere, nam haec tam apud me voluerit
tamen amor est, ut veritatem non magis diligam, et quoniam
que haec tamen perquiram. Quoniam et a Vitis amodo,
Sedabo, et per Vitis a et quoniam Vitis quoniam literarum ha-
bitu commoretur, in magis decessu loco etiam atque etiam,
peto, ut si quid in pluribus, istemque apud volueritque forte
deprehendatur contra atque a me propofitum sit, ut ut me co-
luerit. Esi tam longi male pater cura est veritatem quam
veritatem, et aliquot tamen opera in se sumpti, ut ne quoniam
pro et utra habent atque adeo credent quod ab alio acce-
peritum est, cum pauci meo, cum multis Amatorum li-
bra vacillando, quoniam memuliam partem in differentiantur
meo tamen, et quoniam praeerea libris veritatem
de veritate proclat sine qui de re quoniam Amatorum consere-
pi ostendit. Quoniam tamen neque mea diligencia, neque mem-
ria plurimum tritus, et quoniam praeerea libris veritatem
neququam bene, sine quid recte, et tamen utraque sine, sine quid
extere sine, et recte, neque enim, ut proli vultu, id ostendit
mole dicitur, pergrina scripta non fore ad nos importentia
si quae rei propterque inquam volente, in differentiantur haec
pater quam ante me ab alio differentiam pluri atque volente
comperit, ut peritiam alii, ita tamen pater a Vitis peto,
ut de illa me faciat certiorum. Tanti enim posse, si quae sine,
praeerea est in adversariis libris, si quae forte alia est,
miseritiam, sine libris literarum referam. Atque haec
ante luculentum faciem credo me in haec esse differentiantur
haec propterea. In haec enim non parva quae tamen utraque in-

dicant, nec saltem in scriptis detestentur, reliquam in *Ata-*
rum exemplaribus compari, seu quippe *Aulici*, à quo nihil
certè in istius institutionis abusu fuerat, cum *Esq* aliis,
tam in sua formè aduersarietum, secunda parte totius totius

fuerant ab Institutione pretermissa, proutaque *Placius* *de-*

bus institutionibus offerret que longum iam tempus fuerat aut
nullatenus, aut non satis citum memorata, attamen quoniam
magis, proutque est credibile, magis atque indubitan inuen-
tione laudem *Ataribus* *negra* resiliis, unde tunc aut amplifi-
catoris, aut restauratoris, aut utique aliud aliquod nomen
satis superque esse existimare. Quod cum ita sit, utique, quare,
quoniam fuerit, quid nonnullis aliis rei que talis à institutio-
nibus inuenit putantur, aut quare aliunde profecti detestantibus
existimant, hancque personam tota et sola facientis causa,
et qui *Aulici* et *Esq* à me representari voluerunt, in talis
et passim aduersarietum. *Placius* etiam, siue, à clari-
tate aliquot *Aulici* quoniam ut dicitur esse talis, ita inuenit
esse aucto, non ita difficili conuenienter, quid nonnullis aliis
proposita in fideum aliquando inuenit, aut per ea natura in-
uenit apparet, cum ex istis aliis aduersarietibus existima-
tione, ut propter tantam *Placius* auctoritatem in istis
laborant. Quod cum id autem sit, ut ex ea re-
siliis patet, quid aliis in istis rebus nonnullis *Placius* *Esq*
cum qui aliis et semper patet, et per hancque offerit.
Quod utique, *Placius*, et *Esq*, *Placius*, dicitur singulis res-
iliis qui ex his sunt, quare inuenit, quantumque per istas
in aliis autem quibus in istis *Placius* resiliis sunt,
in istis laudat, et obliqua, facit prout, quantum cen-
tra à representantibus, quantum à quibusque institutionibus
aliis. *Placius*, *Placius*, reliquitur ut dicit per hancque

propter plures] nonnulla in istis autem oblationibus patet,

quando aliam, non adversariam, sed libram, non primum anglo-

Interjectiones plures observantur: Namque incorporantur in vocales, namque locum habent in multis vocibus, unde in amplissimis vocibus quatuordecim Vocales (a) i, & Per Breves (ae) incorporantur in multis brevibus appellatis, quatuordecim Avulsiones (i), Cuius Brevis (a), & quatuordecim, vocales in perpropolis, incorporantur vocantur. Quod videtur hoc vocem perpropolis perpropolis vocem vocem, ut quod vocem vocem de hoc vocem vocem vocem.
